

HIGHLIGHTS FROM PRESBYTERY

*Stated Spring Meeting of the Presbytery of Utah
Community Presbyterian Church, Brigham City, UT
May 04, 2019*

REV. MIKE IMPERIALE RETIRES

Members of First Presbyterian Church gathered to say goodbye. Pastor Mike will be retiring on June 16th and was presented with a few gifts from the congregation, as well as a cake! Pastor Mike says he is excited about his new journey and that he also plans to stay active on the COM and will be in and around the community. Thank you, Pastor Mike, for all your years of dedicated service to First Pres.!!!

FOOD, FUN & FELLOWSHIP

Community Presbyterian Church of Brigham City hosted a wonderful breakfast and an absolutely fantastic luncheon for the Presbytery meeting. All in attendance raved about what a wonderful spread there was. A BIG thank you goes out to all those members of CPC who made the day such a pleasure!

EDUCATIONAL TOPIC

Native American Naji Haska Runs Through, a 17 year old artist attending Tuachan School of Performing Arts, created a project for school featuring Native American clothes he designed and sewed, on Native American women who had red handprints painted over their mouths. The project represented the crisis of missing Native American women all over the country. The artist hopes to display the project until all the women have been found, justice is served and the problem exists no more.

BUSINESS RECAP

Significant action items and reports

- The Presbytery of Utah welcomed Rev. Stephen Weber as a member of the Presbytery of Utah serving as the interim Pastor of Mount Olympus Presbyterian Church.
- The Presbytery of Utah accepted Jamie White as an Inquirer under our care. Jamie is headed for Princeton Seminary this summer to begin her journey to ordination.
- The Presbytery of Utah will be electing Minister, Elder and Youth Advisory delegates for the 2020 General Assembly. Please send all nominations to Derek Forbes no later than August 1st.
- The Presbytery of Utah approved First Presbyterian Church in Logan to apply for a PILP loan to put solar panels on their roof which will cover roughly 60% of their energy needs.
