# CHURCH SAFETY WORKSHOP

---

APRIL 21, 2024

3-5 PM

Good Shepherd  
Presbyterian Church

611 North 2450 E,  
St. George, UT 84790

Do you want to address risk management for churches in general, or active security threats in particular? Join us for a Church Safety Workshop, 21 April, 3-5 pm at Good Shepherd Presbyterian, in St. George.

This presentation and conversation are based on the best of the FBI's research and advice, as well as the Colorado Attorney's General Office, which has responded to so many acts of violence in public spaces, that they have a compelling story for how to think about prevention.

**All houses of worship are welcome to participate, no cost.**

**Topics include...**

- **A church's first line of defense**
- **Pastoral care**
- **Children's safety**
- **Active threats & gun violence**
- **Security teams**
- **Holistic risk management**
- **Practicalities (cameras, insurance, policies)**
- **Fears around discussing safe**

**The Moderator will be the Rev Hansen Wendlandt, from Community of Grace Presbyterian (Sandy, UT). Hansen is not an expert on these issues, but he has been through two rounds of FBI training, helped several congregations through this discussion, built strong relationships with law enforcement agencies, and dealt with real threats in a church setting.**
